

His wood creations include bowls, vases, covered vessels, spindles, columns and anything that can be produced on a lathe, carved, etc. He enhances his art with many interesting finishing and texturing processes including dying, charring wood and the Lichtenberg process of electrifying wood.

Terry's photographic art often presents the unexpected for the viewer. One of his specialties in landscapes and architecture using tilt shift, 3D effects, painting with light and other styles that can be produced in the camera or in the studio with post camera operations.

Terry's exhibits include: Racine, Waterford, Rochester, Milwaukee, Madison and West Bend where his work has been successfully juried and exhibited at MOWA, the Museum of Wisconsin Art. He has been chosen to judge and present awards for the SLC Art Show in Southeastern Wisconsin.

Terry's values are; creativity, work ethic, generosity, excellence and FUN!
